

# 60/30 Classic Steel Shelving System

01.01.2013

# LAMMHULTS LIBRARY DESIGN

Ever since the start 80 years ago, libraries have been the heart of our business. Libraries and their design are our passion and our mission. Today we are proud to call ourselves library people.

With commitment, curiosity, experience and expertise we develop innovative and functional solutions for today's and tomorrow's libraries.

The 60/30 Classic Steel Shelving system is the essence of many years of experience and success. This flexible product concept has evolved over the years and the modular structure and the large number of standard components ensure ideal room utilization and rational accommodation of all relevant functions. In addition the flexibility of the system allows a variety of individual solutions which our design teams bring to live for the individual library.

This price list creates an overview of our standard offering.

For additional inspiration we invite you to visit our website [www.lammhultslibrarydesign.com](http://www.lammhultslibrarydesign.com) where you can find project inspiration from our latest projects around the world.

The 60/30 Classic Steel Shelving system is shown in many creative configurations mixed with special developments such as round shelving with seating benches and castors, integrated youth corners with tables and chairs etc. Our broad portfolio of library furniture provides endless possibilities. Please contact our professional sales teams for inspiration.

The price list listed in this catalogue are valid from 01.01.2013 until 31.12.2013.

## **Conditions of sale and terms of delivery**

All prices are EUR excluding VAT and delivery.

Please see our conditions of sale and terms of delivery on [www.lammhultslibrarydesign.com](http://www.lammhultslibrarydesign.com).

Please feel free to contact our Customer Service if you have any questions or need more detailed information.

## **Updating the price list**

The price list will continually be updated and can be downloaded on our website. Access requires that you register. We then forward a log-in and password via e-mail. If you want to register please sign up on our website.

We reserve the right to make product and price alterations without prior notice and accept no liability for printing errors.

60/30 classic steel shelving

# TECHNICAL SPECIFICATIONS

Please find technical specifications on all main components for the 60/30 Classic Steel Shelving system.

## **DIMENSIONS**

Dimensions of complete bays in available modules and heights can be found in each catalogue section which include complete configurations. See index page for overview.

## **MOUNTING TOLERANCES**

The tolerances of the increments of the column limit the number of shelving bays, which can be built together. Generally the tolerances permit up to 10 successive bays. Above 10 bays it is advised to continue with a starter bay.

## **MAXIMUM LOAD**

Steel top shelf without backedge - max. load of 25 kg

Shelf with backedge - max. load of 80 kg

Wooden top shelf without backedge- blockboard veneered - max. load of 25 kg

Wooden shelf with backedge - blockboard veneered - max. load of 80 kg

Please also see test reports on our website [www.lammhultslibrarydesign.com](http://www.lammhultslibrarydesign.com)

## **MOBILE SHELVINGS/CASTORS**

Double-sided shelving units with a max. height of 152 cm and maximum 3 bays can be mounted with castors. Castors are available with or without brakes. Max. load of 160 kg per castor.

## **EXTENSIONS FOR UPRIGHTS**

are used to increase the capacity. Enables an extra layer of shelves. Available for wall strips, single- and double-sided uprights. Can be used for uprights of max. height of 229 cm and wall strips of max. height of 182 cm.

## **STABILITY**

All uprights are provided with adjustable feet that can be adjusted even when the system is loaded.

## **ROUNDED EDGES**

All storage units and brackets have rounded edges.

## **ASSEMBLY**

No special fittings or tools are needed.

## **STEEL POWDER COATING**

Steel components are powder coated mainly with thermo hardened polyester powder. Depending on colour choice some powders include epoxy. Thickness of the coating is 60-80 my. See design options for colour specifications and type of powder.

## **VENEERED WOODEN COMPONENTS**

are mainly lacquered with UV-lacquer. See design options for veneer specifications.

## **PAINTED WOODEN COMPONENTS**

are made of MDF (medium density fibre board) which is painted with acid lacquer. See design options for colour specifications.

## **STEEL UPRIGHTS**

are made of steel square tubes. The freestanding single- and double-faced uprights are available in two strengths which are recommended based on load carrying requirements. Choose between configurations with either 60 x 30 mm or 80 x 30 mm external dimensions. The upright is 2 mm thick and the welded foot is 3 mm thick. The uprights allow a wide range of shelves and other functions to be mounted in a row of punched holes with a distance of 25 mm. The uprights are provided with plastic caps to close the tube ends. The uprights are also provided with adjustable feet, adjustable to a max. of 25 mm.

## **STEEL WALL STRIPS**

are made of 2 mm steel coils. The uprights allow a wide range of shelves and other functions to be mounted in a row of punched holes with a distance of 25 mm.

# TECHNICAL SPECIFICATIONS

## **STEEL CROSSBARS**

are made of 1.4 mm sheet steel. The crossbars are with hooks for easy connection to uprights. The uprights are connected with 2 crossbars for each bay. The top and bottom crossbar have an opening/groove to allow back panels to be fitted to the uprights without the use of special fittings or tools. A third crossbar is used on first and every third 229 and 259 cm high shelving bay. For heavy load it is recommended to use 3 crossbars in each bay. The third crossbar will be mounted at a fixed position using the slots at height 98 cm above the floor.

## **STEEL CROSSBARS FOR ROUND SHELVING**

are made of 20 x 70 x 2 mm steel square tubes. The crossbars are with connection fittings for easy connection to uprights. The uprights are connected with 2 crossbars for each bay.

## **STEEL BRACKETS**

are made of 1.4 mm sheet steel.

## **STEEL SHELVES/BROWSERS/CABINETS/PULL-OUT SHELVES**

are made of 0.9 mm sheet steel. The flat steel shelves have a 25 mm high front edge. The sloping steel shelves are bent in a way so they have a stopper to prevent magazines from sliding off. Flat steel shelves can be mounted in a sloping position by changing brackets.

## **STEEL KICKPLATES**

are made of 0.9 mm sheet steel.

## **LONDON STEEL KICKPLATES**

are made of 0.9 mm sheet steel over 1 and 2 bays and 1.5 mm sheet steel over 3 bays.

## **PERFORATED STEEL END PANELS**

are made of 1.4 mm sheet steel. The perforations are Ø4.5 mm.

## **LONDON STEEL END PANELS AND TOPS**

are made of 1.4 mm sheet steel.

## **GLASS END PANELS**

are made of hardened frosted glass. Satimat 10 mm with straight mat bevel edges.

## **VEENERED WOODEN PANELS**

are made of 19 mm particleboard. All vertical and horizontal edges are banded with a 4 mm flat strip of solid wood. The wooden panels are surfaced with 0.6 - 0.8 mm thick wood veneer. The wooden panels are supplied with fittings with hooks for easy connection to uprights.

## **PAINTED WOODEN PANELS**

are made of 22 mm MDF. The wooden panels are supplied with fittings with hooks for easy connection to uprights.

## **VENEERED WOODEN DISPLAY PANELS**

are made of 19 mm particleboard. All vertical and horizontal edges are banded with a 4 mm flat strip of solid wood. The wooden panels are surfaced with 0.6 - 0.8 mm thick wood veneer. The wooden panels are supplied with fittings with hooks for easy connection to uprights.

## **PAINTED WOODEN DISPLAY PANELS**

are made of 22 mm MDF. The wooden panels are supplied with fittings with hooks for easy connection to uprights.

# TECHNICAL SPECIFICATIONS

## **PAINTED LONDON WOODEN PANELS AND TOPS**

are made of 30 mm MDF. Along the edges of the panel a flat aluminum profile is attached. The aluminium profile is powder coated in the specified colour. The profiles are mounted on the front edge of panels using visible euro screws which are powder coated in the specified colour. The end panels and top are attached to the shelving using steel brackets.

## **VENEERED BACK PANELS**

are made of 12 mm particleboard. They are surfaced with either 0.6 - 0.8 mm thick wood veneer or laminate.

## **PAINTED BACK PANELS**

are made of 12 mm painted MDF.

## **VENEERED WOODEN SHELVES**

are made of 22 mm blockboard. The front and back edges are banded with 4 mm thick strips of solid wood. The shelves are surfaced with 0.6 - 0.8 mm thick wood veneer.

## **PAINTED WOODEN SHELVES EXPO**

are made of 22 mm painted MDF with special PU paint to increase robustness.

## **PAINTED BOTTOM WOODEN SHELVES EXPO**

are made of 22 mm painted MDF with special PU paint to increase robustness.

## **PINBOARD END PANELS**

are made of 16 mm chip board and a 10 mm fibre board glued together. See design options for fabric specifications.

## **PINBOARD BACK PANELS**

are made of 10 mm fibre board with solid wooden edges on vertical edges.

## **VENEERED CORNER SHELVES**

are made of 19 mm particleboard. The straight edges are banded with 4 mm thick strips of solid wood. The shelves are surfaced with 0.6 - 0.8 mm thick wood veneer (incl. round front edge).

## **VENEERED WRITING PLATES**

are made of 19 mm particleboard. The edges are banded with 4 mm thick strips of solid wood. The shelves are surfaced with 0.6 - 0.8 mm thick wood veneer.

# DESIGN OPTIONS

With our 60/30 Classic Steel Shelving range you have several design options. The following will give you an overview of our standardized options as to steel and wood colours, fabrics, laminate etc. The price list will show chosen price examples, which combined with these design options will provide you with full overview of our offering and pricing for small to medium sized projects.

We offer more than 60 years of experience with interior design of libraries and development of library furniture. Therefore our creative team will be happy to help you with special requests as to materials not covered by these design options.

Please contact our local sales office for project support and offering.

See [www.lammhultslibrarydesign.com](http://www.lammhultslibrarydesign.com) for an overview of group companies and dealers.

## METAL PARTS

(Uprights, crossbars, brackets, shelves, functions, kickplates, light housing)

The metal parts can be powder coated in standard BCI steel colours at no extra charge\*

\*A surcharge of 3% will be added to the following standard BCI colours: Mango (#237), Copper (#241) and City Grey (#236).

The metal parts can also be powder coated in other colours with the following surcharges:

- Starter fee for RAL colours EUR 210 + surcharge of 15%\*
- Starter fee for NCS colours EUR 460 + surcharge of 15%\*
- Starter fee for custom colours EUR 460 + surcharge \*\*

\*A higher surcharge for colours with "metallic" look or different surface textures must be expected.

\*\*Surcharge depends on supply channel and project size.

Chrome, electro galvanised and aluminium parts are not available in other colours.

Please see list of standard colours on next page.

# DESIGN OPTIONS

## WOODEN PARTS

(Shelves, end panels, display panels, table tops)

The wooden parts can be manufactured in a number of different lacquered wood veneers.

- Beech wood + surcharge of 0%
- Birch wood + surcharge of 0%
- European oak wood + surcharge of 15%
- Ash wood + surcharge of 20%
- European maple wood + surcharge of 20%
- Cherry wood + surcharge of 30%

Ash 68

Beech 70

Birch 69

Oak 66

Maple 67

Light steamed beech 55

Cherry 54

The wood veneers can also be stained with an additional surcharge of 15%. Samples will be forwarded for approval.

The wooden components can be painted in any NCS colour in gloss 30 to 35 without extra surcharge\*.

Examples of NCS colours

\*A higher surcharge for colours with "metallic" look or different surface textures must be expected.

Please note that wooden components which are to be painted in other colours may be manufactured in MDF. Please note that our wooden shelves and table tops are manufactured with a stronger paint to resist the wear and tear of books sliding across the painted surface. For maximum robustness we recommend laminated wooden shelves.

# DESIGN OPTIONS

## **FABRIC FOR PINBOARDS**

(end panel, back panel)

Pinboards are delivered with light cotton or Pause 3 fabric.

Visit [www.kvadrat.dk](http://www.kvadrat.dk) (go to collection and fabric) to choose from available colours of Pause 3.

Light cotton

Selection of Pause 3 fabric

## **LAMINATE**

(shelves, table top)

Wooden shelves and table tops can be manufactured with laminate. Contact sales for options.

**Please note that colours are only indicative, we cannot guarantee colour fastness. Please request samples for true colours.**

**Armentières Media Library, France**  
60/30 classic steel shelving with London end panels and top shelves

# 60/30 CLASSIC STEEL SHELVING

The following pages will show basic configurations of the 60/30 Classic Steel Shelving system based on 60/30 upright installations. Please find important dimensions below.

## HEIGHTS

60/30 Classic Steel shelving system comes in 4 heights; 122, 152, 182 and 212 cm.  
 Heights include adjustable feet (max. 2.5 cm).  
 The shelves are adjustable in 2.5 cm increments.

## WIDTHS

The bays are available as starter and add-on bays. A starter bay has two uprights and an add-on bay has one upright.

78 cm is shown as module 75 in price list  
 93 cm is shown as module 90 in price list  
 103.5 is shown as module 100 in price list\*

Module 75, 90 and 100 indicate distance from center to center of uprights.

\*The exact measure of module 100 is 100.5 cm

## DEPTHS

The uprights come in 4 depths:  
 30 cm for 22.5 cm deep shelves  
 32 cm for 25 cm deep shelves  
 37 cm for 30 cm deep shelves  
 47 cm for 40 cm deep shelves

51 cm for 2x22.5 cm deep shelves  
 56 cm for 2x25 cm deep shelves  
 66 cm for 2x30 cm deep shelves  
 86 cm for 2x40 cm deep shelves

# 60/30 CLASSIC STEEL SHELVING

## SINGLE-SIDED CONFIGURATIONS WITHOUT TOP SHELF

Complete shelving system with uprights, crossbars, shelves, brackets and fittings. Shelves are steel shelves with backedge. Number of shelves are calculated for optimal shelf spacing for fiction.

**Roskilde University Library**  
80/30 classic steel shelf with London wooden top shelf and panels

# 80/30 CLASSIC STEEL SHELVING

The following pages will show basic configurations of the 60/30 Classic Steel Shelving system based on 80/30 upright installations. The wider construction of this upright allows for greater total weight and also a taller construction. Please find important dimensions below.

## HEIGHTS

80/30 Classic Steel shelving system comes in 3 heights; 199, 229 and 259 cm.  
 Heights include adjustable feet (max. 2.5 cm).  
 The shelves are adjustable in 2.5 cm increments.

## WIDTHS

The bays are available as starter and add-on bays. A starter bay has two uprights and an add-on bay has one upright.

78 cm is shown as module 75 in price list  
 93 cm is shown as module 90 in price list  
 103.5 is shown as module 100 in price list\*

Module 75, 90 and 100 indicate distance from center to center of uprights.

\*The exact measure of module 100 is 100.5 cm

## DEPTHS

The uprights come in 4 depths:  
 32 cm for 22.5 cm deep shelves  
 34 cm for 25 cm deep shelves  
 39 cm for 30 cm deep shelves  
 49 cm for 40 cm deep shelves

53 cm for 2x22.5 cm deep shelves  
 58 cm for 2x25 cm deep shelves  
 68 cm for 2x30 cm deep shelves  
 88 cm for 2x40 cm deep shelves

# 80/30 CLASSIC STEEL SHELVING

## SINGLE-SIDED CONFIGURATIONS WITH TOP SHELF

Complete shelving system with uprights, crossbars, shelves, top shelf, brackets and fittings. Shelves are steel shelves with backedge, top shelf is steel shelf without backedge. Number of shelves are calculated for optimal shelf spacing for fiction.

60/30 Classic Steel wall shelving

# 60/30 CLASSIC STEEL SHELVING - WALL

The following pages will show basic configurations of the 60/30 Classic Steel Shelving system based on 60/30 wall strip installations. Please find important dimensions below.

## HEIGHTS

60/30 Classic Steel shelving - Wall system comes in 4 heights; 112.5, 142.5, 172.5 and 202.5 cm. The shelves are adjustable in 2.5 cm increments.

## WIDTHS

The bays are available as starter and add-on bays. A starter bay has two wall strips and an add-on bay has one wall strip.

78 cm is shown as module 75 in price list  
93 cm is shown as module 90 in price list  
103.5 is shown as module 100 in price list\*

Module 75, 90 and 100 indicate distance from center to center of uprights.

\*The exact measure of module 100 is 100.5 cm

## DEPTHS

The uprights come in 4 depths:  
24 cm for 22.5 cm deep shelves  
26.5 cm for 25 cm deep shelves  
31.5 cm for 30 cm deep shelves  
41.5 cm for 40 cm deep shelves

# 60/30 CLASSIC STEEL SHELVING - WALL

## CONFIGURATIONS

Complete shelving system with wall strips, crossbars, shelves, top shelf, brackets and fittings. Shelves are steel shelves with backedge, top shelf is steel shelf without backedge. Number of shelves are calculated for optimal shelf spacing for fiction.

### Height 112.5 cm (3 shelves + top shelf)

Newport University, Wales  
60/30 round steel shelving

# 60/30 ROUND STEEL SHELVING

The following pages will show basic configurations of the 60/30 round steel shelving system based on 60/30 upright installations. Please find important dimensions below.

## HEIGHTS

60/30 Round Steel Shelving system comes in 4 heights; 122, 152, 182 and 212 cm. Heights include adjustable feet (max. 2.5 cm). The shelves are adjustable in 2.5 cm increments.

## WIDTHS

The bays are available as starter and add-on bays. A starter bay has two uprights and an add-on bay has one upright.

## DEPTHS

The uprights come in one depth: 66 cm for 2x30 cm deep shelves

# 60/30 ROUND STEEL SHELVING

## CONFIGURATIONS

Complete shelving system with uprights, crossbars, shelves (with backedge), top shelf (without backedge), brackets and fittings. The shelving system is double-sided. Shelves are rounded steel shelves with backedge, top shelf is steel shelf without backedge. Number of shelves are calculated for optimal shelf spacing for fiction.

# 60/30 EXPO

60/30 Expo is made of steel uprights, painted wooden shelves and acrylic display shelves. The steel uprights and painted wooden shelves are available in all our standard colours. Choose between round or straight shelving corners. 60/30 Expo is available in heights 122 cm and 152 cm with depth 30 cm and width 90 cm. It is available as both single- and double-sided and as starter- and add-on bay (maximum 3 bays).

Please note: wooden shelves cannot be placed next to an acrylic shelf and wooden shelves cannot be placed in front of intermediate panels.

# 60/30 EXPO

On the following pages you will find a selection of 60/30 Expo configurations including prices and lists of components included in the specific configuration. Please note that other configurations are available.

60/30 Expo consists of components, which are used for the classic shelving configurations along with a series of specific 60/30 Expo components.

Please note that all drawings show shelves with straight corners and not shelves with round corners.

Please find below a component overview showing all components which are relevant for 60/30 Expo.

## Component

1. Upright, 60/30 .....	B301000XXX
2. Crossbar, 60/30 .....	B301012X
3. Acrylic display shelf, 60/30 Expo* .....	B308500XX
4. Sign incl. brackets and fittings, 60/30 Expo (not shown) .....	B308503X
5. Bracket for shelf, 60/30 Expo** .....	B308504X
6. Bottom shelf with round corners, 60/30 Expo (not shown) .....	B308505XXXXX
7. Bottom shelf with straight corners, 60/30 Expo .....	B308506XXXXX
8. Shelf with round corners, 60/30 Expo (not shown) .....	B308508XXXXX
9. Shelf with straight corners, 60/30 Expo .....	B308509XXXXX
10. Back panel, wood, 60/30 .....	B301900XX
11. Back panel with fabric, 60/30 (not shown) .....	B301800XX
12. Shelf with back panel overlap with round corners, 60/30 Expo (not shown) .....	B308511XXXXX
13. Shelf with back panel overlap with straight corners, 60/30 Expo .....	B308512XXXXX
14. Castors without brake (not shown - not included in configurations) .....	B3060000
15. Castors with brake (not shown - not included in configurations).....	B3060001

\* Single shelving = 1 pcs. per bay / double shelving = 2 pcs. per bay

\*\* To be mounted in all uprights to support shelf (not used for bottom shelf)

# CLASSIC STEEL SHELVING

## CHECK LIST

When constructing your own shelving, there are many factors to be taken into consideration and most importantly, you must remember to order all parts. Below you will find a check list of components you need to consider when constructing your own Classic Steel Shelving.

---

### 60/30, 80/30 & WALL

#### UPRIGHTS / WALL STRIPS

This is the main component for constructing your shelving. Before building your shelf you must know the height and shelf depth of your finished shelving. See from page 51.

#### UPRIGHT EXTENSIONS, KICK PLATES, CROSS BARS & CASTORS

Nearly all of these components are necessary (except castors) when constructing your shelving. See page 53.

#### SHELVES & BRACKETS

There are many variables to consider when choosing shelves: vertical or sloping, wood or steel, with or without backedge and finally with or without top panel. Remember to order brackets, when not included. See from page 54.

#### FUNCTIONS

A variety of possibilities to create the exact shelving you wish. Exchange shelving for one of the many options: browsers, cabinets, work stations or multimedia storage. See from page 68.

#### PANELS

Add panels to complete the shelving - either with side panels, back panels or pinboard panels. See from page 74.

#### LONDON SERIES OF END PANELS AND TOP SHELVING

To complement the 60/30 Classic Steel Shelving, we have end panels and top, designed to create a frame around the range of 60/30 steel shelving bays. The concept is available in wood and steel. See from page 84.

---

### ROUND

#### UPRIGHTS, UPRIGHT EXTENSIONS, CROSS BARS, SHELVES AND BRACKETS

All components needed to construct Classic Steel Round shelving can be found on one page. See page 95.

#### PANELS

Add panels to complete the shelving. See from page 74.

#### LONDON SERIES OF END PANELS AND TOP SHELVING

Complete the Round Classic Steel Shelving with London wood end panels and top. Note London steel end panels and top shelving can not be used for the round shelving. See from page 86.

---

### EXPO

#### EXTRA SHELVING FOR EXPO CONFIGURATIONS

60/30 Expo consists of components used in Classic Shelving configurations along with a series of specific 60/30 Expo components.

To add extra shelving to the 60/30 Expo configurations shown on page 34 and onwards, see page 65.

# PANELS

## WOODEN END PANELS

The wooden end panels are available in a range of beautiful wood veneers that create a classic framework on the 60/30 steel shelving. Alternatively the wooden end panels may be chosen in any colour imaginable. Use colours to indicate zones in the library, to create mood impressions or to enhance specific themes. See design options for veneer and colour options.

## WOODEN END PANELS

The wooden end panels are available in a range of beautiful wood veneers that create a classic framework on the 60/30 steel shelving. Alternatively the wooden end panels may be chosen in any colour imaginable. Use colours to indicate zones in the library, to create mood impressions or to enhance specific themes. See design options for veneer and colour options.

## PERFORATED STEEL END PANEL

A streamlined design with 45 mm front edge which will give the shelving system a uniform look. The symmetrical perforation provides a light, modern look. The panels are designed with slats for A5 acrylic covers for signage. Differentiate areas in the library by use of colour. See design options for colour options.

### Perforated steel end panels incl. fittings - single-sided

## BACK PANELS

The back panels are available in wood veneer or in any colour. See design options for veneer and colour options. Back panels can have various functions. First of all a shelving system with back panels provide a different look. The shelving systems can be used as room divider and will to some extent absorb noise. Back panels can by use of colours enhance themes combined with sloping display shelves or create room for posters etc. You can integrate work stations in the shelving system and separate them by use of back panels.

60/30 steel shelving with London end panels and top shelving

# LONDON END PANELS, TOPS AND KICKPLATES

The London concept which consists of end panels and top is designed to create a frame around the range of 60/30 steel shelving bays. The concept is available in wood and is now also introduced in steel.

## London wood

London end panel and top are available in 30 mm MDF painted in any colour. London wood is provided with an optional kickplate which is placed below the bottom shelf and will support the framed look. The top is available for 1, 2 or 3 bays. Along the edges of the panel a flat aluminum profile is attached. The aluminium profile is powder coated in the specified colour. The profiles are mounted on the front edge of panels using visible euro screws which are powder coated in the specified colour. The end panels and top are attached to the shelving using powder coated steel brackets. See design options for colour specifications.

## London steel

London end panel and top are available with 30 and 45 mm frontedge and can be powder coated in any colour. The top is available for 1, 2 or 3 bays. The end panels and top are attached to the shelving using powder coated steel brackets. See design options for colour specifications.

## London top

London wood and London steel tops are available as freestanding, intermediate and outer tops. Freestanding top is always used for 1 bay and can be used up to 3 bays for London Wood and up to 2 bays for London steel. Intermediate and outer tops can be used for 2 or more bays.

Top freestanding - cover end panels in both ends

Total width cm	London wood & steel 30 mm		London steel 45 mm	
	Module 75	Module 90	Module 75	Module 90
1 bay	82	97	85	30
2 bays	157	187	160	190
3 bays	232	277	N/A	N/A

Top outer - cover end panel in one end

Total width cm	London wood & steel 30 mm		London steel 45 mm	
	Module 75	Module 90	Module 75	Module 90
2 bays	153	183	156	186

Top intermediate - is placed between outer tops

Total width cm	London wood & steel 30 mm		London steel 45 mm	
	Module 75	Module 90	Module 75	Module 90
3 bays	243	273	246	276

For each additional bay/top intermediate total width is increased with 75/90 cm (module 75/90)

With brakes B3060001

### End panels and accessories

For end panels and accessories (e.g. book supports) for round shelving, please see page 77 and 102.  
Please note that London steel end panels cannot be used for round shelving.

**Møn Public Library, Denmark**  
Zign lighting installed on 60/30 steel shelving

On the following pages you will find our standard light programme for the 60/30 Classic Steel Shelving system.

With many years of expertise in understanding the role and the function of modern libraries, we have designed and supplied a broad variety of light solutions to our shelving systems. Therefore we recommend you contact us to get an idea of our special light offering.

Depending on the architecture of the library, the use of daylight and other light sources we have the competencies to offer you special solutions that support the function of the library.

Recommended special light solutions:

## Zign lighting

Moen Public Library, Denmark

Skaelskoer Public Library, Denmark

The National Art Library, Denmark

The Zign lighting armature can be fitted on the BCI steel shelving system in the 60/30 or 80/30 uprights. In addition a model for wall mounting is available. The armature is supplied with 3 meter cable and reflector. HF linked. Light tube is not included. Recommended light tube is T5, Ø16 mm. The light effect is min. 200 lux on the bottom shelf at a shelving height of 212 cm. Bearing arms and louvres must be ordered separately. Available in standard BCI steel colours, see Design Options.

*Please note: prices are only valid for orders including bearing arms. When ordering below 25 pcs. per order a starter fee of EUR 335.50 will be added to the price.*

## Book Big lighting

Middelfart Public Library, Denmark

The DR Media House, Denmark

Halmstad Public Library, Sweden

The Book Big lighting armature can be fitted on London wooden top shelves. The armature is supplied including FDH T16 light tube. The light effect is min. 200 lux on the bottom shelf at a shelving height of 212 cm. End covers, cable, connect fittings and bearing arms must be ordered separately. The armature can be mounted over 1, 2 and 3 bays by use of connect fittings. Continuous runs also require connect fitting. Available in standard BCI steel colours, see Design Options. CE-approved.
